2.0 Legacy

2.5

Rules

Can be found at <https://x2po.org/standard>

Basically, the last FFG Rules Reference + no half points regen and deficit scoring with first half points on an enemy ship

Squad building

Build up to 200 points using <https://xwing-legacy.com>

Deficit

Once a player has scored at least half points on at least one enemy ship, they also score the difference between 200 and the points cost of their opponent's squad.

Player Order

Maintained for the duration of the game

- Lowest squad points = Chooses first player
- If players are tied for squad point total, one player calls either "hits" (★ or ✎), or "misses" (blank or ☀). Then the other player rolls one attack die. If the player chose the set of results that matches the die, that player chooses which player is the first player; otherwise the other player chooses

Bans

Nothing

Half Points

No regen cheese

Each player receives half the total squad point value (including upgrade cards), rounded up, of each enemy ship whose health (combined total hull and shields, including any modifications to hull or shields via cards such as Hull Upgrade or Shield Upgrade) had been reduced to half or below at any point during the game.

Squad building

Build up to 20 points

Deficit

At the start of the game, each player earns mission points equal to their opponent's deficit.

Player Order

Determined Each Round = R.O.A.D. (Random Order After Dials)

- After planning phase & before system phase:
- Each player rolls three attack dice
- ✎ > ☀ > ★ > [Blank]
